A Young Adventuress.

A girl, named Barnard, residing at Anamosa, and only sixteen years of age, has created considerable excitement thereabouts of late by a series of bold thieving operations. She is the daughter of a washerwoman, but, though poor, is not content with either the food or habiliments of poverty, and has not only transcended the rules of propriety, but of law, in seeking to elevate her condition. A few months ago she forged an order on a meat market and obtained a supply of staunch food for the house in this way. She also forged an order on a millinery store and thus secured an outfit, subsequently robbing a dry goods store of four or five dollars' worth of goods to enhance her wardrobe. Last Saturday evening Miss Barnard desired to attend a party in her neighborhood, but was forbidden by her mother. Nothing daunted, she sailed forth about 6 o'clock, and broke into the residence of W. C. Benton, a lumber dealer, while the family were absent. Here she rifled the wardrobe of Miss Benton of several fine dresses and innumerable little fix's, such as accompany a lady's toilet. She carried these away, and subsequently appeared clad in Miss Benton's finest, to the wonderment of her associates. The things were all found and returned, but the young lady was not prosecuted, no one being willing to commence proceedings against the unfortunate girl, who, though addicted to this besetting vice, yet, has many redeeming qualities.

A Novel Leap-Year Party.

The fashionable people of Atlanta, Ga., are soon to give a very novel leap-year party. The party is to be entirely composed of the young people of our best society—married folks to be excluded except as spectators. The participants are to be *en masque et costume* and remain so until midnight. Each young lady, upon arrival, deposits in a box a sealed proposal of marriage, signing it with the name of the character she represents. The young gentleman draw these from the box, and each one must find out the fair lady representing the character signed to his proposal, conduct her before a burly centennial magistrate, who will perform a quaint, olden-time *quasi* ceremony. From that time until midnight the couple are to be companions and enjoy themselves as one. But at midnight a pompous Chicago judge, with a sheriff and two attorneys, enter and open a divorce court. The parties are severally called up in couples, tell horrible things of each other, are solemnly divorced, supper is announced and after that the party continues in the usual way.

Severe Winter in Russia.

A letter from St Petersburg, dated the 29th of December, in the *Debats*, says: "The excessive and almost exceptional rigor of this Winter seems to have thrown a veil of sadness over this capital, and iced the political life as well as the mundane pleasures of the seas. The thermoneter marks 32 degrees centigrade below freezing point, (15 5-10 degrees Fahrenheit below zero); the lamps give only a vague and insufficient light; the wheels of the vehicles rolling on the snow produce a horrible crunching unknown to inhabitants of more temperate zones; the faces of the unlucky cabdrivers and workmen who are obliged to face that polar air present nothing more than a blue surface surrounded with icicles. Foot passengers go at a full run, covering the face with thick fur. Conversation turns solely on the state of the atmosphere. The head becomes heavy, and at last languor overcomes every one in spite of the artificial heat of the stove."

A young gentleman got neatly out of a fine scrape with his intended. She taxed him with having kissed two young ladies at some party at which she was not present. He owned up to it, but said that their united ages only made twenty-one. The simple-minded girl thought of ten and eleven, so laughed off her pout. He did not explain that one was nineteen and the other two years of age.

He came home very late one night, and after fumbling with his latch key a good while, muttered to himself as he at length opened the door, "I mushn makeny noish, caush tholoman's ashleep." He divested himself of his garments with some torubble, and was congratulating himself on his success as he was getting into bed when a calm, clear, cold voice sent a chill down his spinal column: "Why, my dear, you ain't going to sleep in your hat, are you?"

Among the events of the day which are looked forward to with pleasing anticipation are Martha Washington receptions and the annual dinner of Secoy, of Cincinnati. SENATOR SATTERWHITE has introduced a bill authorizing the people of San Bernardino county to vote $150,000 subsidy to a railroad to run from San Bernardino to San Diego. The *Guardian* wonders why the San Diegans do not also subsidize. Because there is no TOM SCOTT in it.

COL. SMITH, of the legal firm of GLASSELL, CHAPMAN & SMITH, informs us that his firm is not retained by the assignees of TEMPLE & WORKMAN. They were employed in one or two cases against the estate, but on their own application and against the wishes of the assignees they withdrew from the employ of the estate. The cases in which they are employed do not interfere with their duty as the attorneys of Mr. BALDWIN.

An Expensive Bill.

The irrigation bill for this county, now in the hands of Assemblyman MCCONNELL, is objectionable in many respects. It is, in fact, so objectionable that we believe it to be the wish of nine-tenths of the people that it do not pass. We have never been favored with a sight of the bill, and we doubt if it was the intention of its authors that its provisions should be discussed and understood by the people. We have, however, conversed with a gentleman who has read the bill, and from him we glean the following as some of its features: It retains the present Superintendent of Irrigation; authorizes him to draw five thousand dollars without defining how it shall be expended; it provides for surveying and mapping the county; it names five Commissioners who are to be paid five dollars per day and the same mileage paid to Supervisors; it calls for a Water Commissioner, a Treasurer, a Tax Collector, a Tax Assessor and a Secretary. The Board of Commissioners are to meet four times a year unless oftener called together by the Superintendent. The bill also authorizes the issuance of bonds to run twenty years at a rate of interest that will aggregate an immense sum, and it does not give the people an opportunity to vote on a single provision. This bill should not become law. If it passes it will burden the people with an enormous debt and give them but little water. Therefore, we hope our delegation in the Legislature will not advocate the passage of the bill. So far as we have been able to obtain an expression from the farmers they are almost to a man opposed to it.

Railroad Development.

The impression prevails with quite a number of our Senators and Assemblymen that the people require at their hands some action which will affect the existing rates of freights and fares on our railroads. The intelligent Legislator fully understands the difficult nature of the subject, and recognizes the almost utter impossibility of touching without disorganizing it. The problem is rendered still more difficult of solution by the varied and conflicting interests of locality and the consequent different views of those upon whom depends the work of making a picture present the same aspect from twenty or more different points of observation. For instance, the development and prosperity of Southern California depends to a great extent on the rapid extension of her railroads now in course of construction. Los Angeles, which is the center of the system of railroads now developing the Southern end of the State is indebted to the locomotive for fully one-half the taxable wealth that now appears on her assessment roll, and this and San Bernardino county are moving rapidly forward under the impulse of steam and rail. Railroads are making this part of the State, and any Legislative enactment or code that will in the least tend toward checking railroad building among us will be opposed by the entire community. Under the assurance that Los Angeles valley will in a few months be connected with San Francisco, New York and the rest of the world by rail, property in this city and county is steadily advancing. Let the Legislature pass an act which will so affect railroads as to compel a cessation of work on all railroads now in course of construction in this part of the State, and we shall witness a decline of at least thirty-three per cent. in real estate in this city and county.

Retired.

The issue of the Santa Barbara *Press* for the 17th inst. contains the valedictory of Mr. J. A. JOHNSON, who seven years ago founded the paper, and from the beginning has been its owner, editor and manager. Surroundings, circumstances and means considered, no man has done more for a locality than Mr. JOHNSON for Santa Barbara. When he selected that beautiful watering place as his home and the field of his future labors, it was comparatively unknown. Its population was light and few knew of its romantic site, salubrious climate and sanitary advantages. By untiring industry and great pecuniary sacrifice he succeeded in making Santa Barbara a household word, not only throughout the Pacific coast, but in the Eastern States. Mr. JOHNSON is a man of enlarged views. He believes that what is good for Santa Barbara is good for all Southern California, and to this end he, last Summer, at heavy expense, secured photographic views of towns, buildings, farms, vineyards, and other noted and beautiful places in the Southern counties, and with them went on a lecturing tour through the Eastern States. His object was to lay Southern California as a panorama before the thousands who had heard of our beautiful country and desired to know more of it. How well he succeeded the hundreds whom his pictures and lectures induced to come here will testify. In laying down the editorial pen Mr. JOHNSON does not intend retiring to private life. He does not propose to relinquish the great work he has undertaken of panoramizing Southern California for the information of the people of the East, and in furtherance of his undertaking he is now preparing to spend several months as the representative of this part of the coast at the great Centennial. In a few weeks he will leave for Philadelphia where he will establish a department for the diffusion of information of a practical and reliable character, relative to the garden spot of the West. With his photographic views and his vast fund of facts, he will do much in the way of inducing thousands of men and women to seek homes in the rich valleys of Southern California. We wish our late co-laborer in the editorial field every success. He deserves, and we doubt not, will receive the substantial support of the leading and wealthy members of our community. His success is our permanent gain.

EASTERN NEWS.

BROOKLYN, N. Y., Feb. 21st.—The following letter was sent to the Advisory Council to-day:—90 Willow Street, Brooklyn, N. Y., February 21st, 1876, to Rev. Leonard Bacon, D. D., Moderator:—There were some statements made to the council on Friday, as reported to the papers, were so incorrect that I am compelled to contradict them. First, Mr. Beecher is reported as saying that Mr. Bowen is a man of courage but has not courage enough to look me in the face. It is false that I have never dared to meet him in this way, as the following facts will show: On May 25th, 1873, Mr. Beecher had learned that it was reported as coming from Mr. Carpenter, that I had reasserted to him charges made against Mr. Beecher. Charges of moral impurity. Mr. Beecher wrote Mr. Moulton a letter which was published that he had sent Mr. Cleveland, the latter of the Investigating Committee, with his, Beecher's horse and buggy, to hunt Carpenter and warn him to be careful about repeating such a statement. Mr. Cleveland brought Mr. Carpenter to Mr. Moulton's house, and Mr. Moulton took him and Mr. Claflin to my house. The matter was talked over and the result thus given by Mr. Carpenter as published July 29th, 1874:

Mr. Claflin said, "I think we had better have Mr. Beecher here to-night.

I. Carpenter said he would be glad to have Mr. Beecher present.

Mr. Bowen said, "I am willing to have Mr. Beecher here and will confront him.

Mr. Claflin volunteered to go and get him, when Mr. Moulton started up and said, "Mr. Claflin, I will go." He went out and was gone 15 or 20 minutes. He returned without Mr. Beecher, saying the house was closed and the windows darkened, that he rang the bell but could not raise anybody. This was about half-past ten o'clock.

Mr. Claflin then said: "Well, I think it important that Mr. Bowen and Beecher should have a private interview before this matter goes any further.

Mr. Bowen pledged that he would be ready and willing to see Beecher the next day, Monday, anytime between 8 o'clock in the morning and 10 at night.

Mr. Claflin said he would see Beecher the next morning and arrange such an interview, and a few minutes later we left Mr. Bowen's residence.

In accordance with this promise Mr. Claflin asked Mr. Beecher to meet me as the following letter will show:

NEW YORK, May 36th.—FRIEND BOWEN—My Dear Sir.—I called at Mr. Beecher's house as I came over, but he had gone to Peakskill to be away all day. I will bring him to your house about 8 o'clock this evening if he will go, and I think he will, although Mrs. Beecher said she did not wish him to see you without knowing the object of my call. Truly yours,

(Signed) S. B. CLAFLIN.

Mitchell, the Wife Murderer.

SAN BERNARDINO, CAL., Feb. 21.—Mitchell and his brother were brought in Saturday night by Mr. Tom McFarland and Mr. John Mayfield, Deputy Sheriffs, and lodged in jail. Mitchell seems much depressed and requested Mayfield to shoot him rather than bring him back to his former quarters. His captors were offered two thousand dollars to allow him to escape.

Legislative Excursion.

TRUCKEE, 20th.—The Legislative excursion party, consisting of thirty-seven Senators and Representatives who accepted the invitation of Governor Stanford to view the line up to this place, arrived here Friday evening at 8:40 and after regaling themselves upon a bountiful supper at the Cardwell House attended the ball given in their honor. To-day they will visit Prosser Creek on sleighs and view the ice works at that place.

New Appointment.

WASHINGTON, Feb. 21st.—Mr. Jewell, formerly Second Assistant Chief of Bureau of Engraving and Printing of the Treasury Department, was this morning appointed Chief of Bureau in place of Col. McClarlie resigned.

A HEALTH DEPARTMENT.

What the Doctors Say About it—Communication to the Common Council from the Medical Association, Presented Last Thursday.

To the Honorable the Mayor and Common Council of the City of Los Angeles:—The "Los Angeles Medical Association" would beg leave to call your attention to the importance of a well organized and efficient Health Department for the city, such as is established in other cities of like size and population. The need of such sanitary supervision in the city of Los Angeles is especially great, for the following reasons, viz: The mixed character of the population, with its attendant disregard of any systematic manner of life; the irregular and narrow streets of a portion of the city; the crowded adobe houses of the Chinese quarter, and, indeed, of some other localities; the constant and evident accumulation of filth, from a defective and insufficient sewerage for a rapidly increasing population; and, in addition to all these, a climate so mild that the temperature of mid-Winter is not low enough to even temporarily hold in check the ill effects of the bad sanitary condition of the city. Furthermore, the city in the course of its improvements is now in that transition stage when the grading of streets has destroyed the natural drainage of the surface, and, as yet, artificial drainage by means of sewers has not taken its place. This leads to the formation of many bodies of stagnant water, exceedingly detrimental to the health of certain localities. There should be some general sanitary supervision over all these fruitful sources of disease.

And again: The city is now entering upon a series of extensive and costly enterprises to dispose of its sewage matter. In the carrying out of these improvements many points will necessarily arise where the experience and special knowledge of medical men will not only render these works more efficient, but may also lead to the more economical use of the large sums which must be expended.

The "Medical Association" make this communication not simply officially, as a society, but also individually as citizens to whom, because of their professional training, the subject appeals with especial force; and because they, in their daily rounds upon the streets and in the dwellings of the people, note many sources of disease which, under an efficient sanitary supervision, should not be allowed to exist. Submitted by vote of the Medical Association.

J. P. WIDNEY, M. D., Sec'y.
Los Angeles, Feb. 15th, 1876.

We understand that Mr. C. W. Johnston, who has been so long and favorably known to the patrons of the Backman and Grand Central, has resigned his position as clerk, to take effect on and after March 1st. We, for one, will sadly miss the genial face of him who so often and pleasantly has greeted us from behind the desk of the Grand Central, and we opine that Fisher will be loser in this case, for we have seen the endorsement that he has given to our friend Johnston which, in itself, speaks volumes for his business integrity and faithfulness to duty. Mr. Johnston has been in bad health and came to our city to spend the winter. He now finds himself greatly improved and to add strength and vigor to his constitution, will seek for the future a more active life. We cheerfully recommend him wherever he may cast his lot, and trust that his well known business qualifications will secure for him a more lucrative position than he has recently been supplying.

Detective Harris has worked up the case of the steamer robbery, and has satisfied himself that the two men who were suspected are innocent. He has a theory respecting the matter which we believe to be the correct one, but as at present it is impossible to prove anything, it is useless to make it known.

An Explanation.

We have received the following note, which explains itself:

EDITOR HERALD: In your Sunday's paper you mention Glassell, Chapman & Smiths as among the "army" of retained counsel for Messrs. Temple & Workman. Please make correction to this extent: We *were* among the counsel for Messrs. Temple & Workman in drafting papers for making their assignment, and otherwise for about a month after that event, when on account of conflicting interests represented by us we withdrew as general counsel and now only represent said late firm and their assignees in one or two special cases.

Respectfully, &c.,
GLASSELL, CHAPMAN & SMITHS.
Los Angeles, Feb. 21st, 1876.

About 9 o'clock last Friday night a mare was stolen from the premises of Mr. Kincaid, corner of Pearl and Pico streets. The male members of the family were all at the theatre, leaving Mrs. Kincaid and the children alone, when the thieves entered, surveyed the primises, looked in at the windows where the lights were burning, then took the mare which was the property of Mr. Morris, a guest of the family, and departed, probably for Lower California. We recommend the planting of blue gum trees at convenient distances on that route. They might prove extremely handy and useful some day.

"Fanchon, the Cricket," was presented by Piper's Opera House Company last night. There was not so large an attendance as on the previous occasions, but we consider the play the best yet rendered by this Company in our city. We hope to see an overflowing house to-night.

Pomona is to have a newspaper. The gentleman who propeses to inaugurate the enterprise has already received pledges from those interested amounting to enough to secure his support.

A meeting of the stockholders of the Commercial Bank will be held on Wednesday, March 1st, for the purpose of electing Directors and a Cashier.

Considerable interest was developed in a wrestling match between Snow and Brock at the Novelty Theatre last night. The purse, $150, was won by Snow in the second and third falls.

Harris, of the Quincy Hall clothing store, goes up to San Francisco to-day to replenish his already large stock. We may expect the latest styles.

We learn that the Pico House hop passed off very pleasantly last night. We regret that we were unable to attend.

The Philadelphia Brewery, under the management of Mr. Lichtenberger, is doing an extensive business. The quality of the beer is excellent.

The celebration of Washington's birthday by the people of Pasadena will be quite creditable to their patriotism and many of our citizens will join them.

FIRST—THEIR SIMPLICITY,
The use of them is very easily acquired, and any girl of ordinary intelligence is capable of keeping them in order.

SECOND—THE CONSTRUCTION

THIRD—THEIR DURABILITY
being so strong in all their parts and fitted with great mechanical nicety, and being free from the harsh jarring movements and friction so common in inferior machines they will wear a long time without repair of any kind.

FOURTH—THEIR ADAPTABILITY,
By a simple change of the needle and thread they will sew the finest cambric or the heaviest leather.

FIFTH—THEY HAVE NO ROTARY CAMS,
Cog-wheels or lever arms to make a noise, run hard, or to get out of order.

SIXTH—THEY HAVE AN ADJUSTABLE

SEVENTH—ALL THEIR MOVEMENTS

Donnelly, Loyd & Co., publishers of the Lakeside Library, have just issued "Travels and Adventures on the Land, on the sea and in the Air:" also, "The Queen of Connaught." These novels are sold for ten cents each. In any other form they would cost seventy-five cents to one dollar apiece.

Stackpole, of the Grand Central wine rooms, has an easy way of writing to his wife. He cuts out the notices we have given of his establishment and puts them into an envelope and sends them along. He may possibly add that his health is good; we don't know.

A lady came into Cameron's fish and poultry market yesterday and observing his live owl on his perch, remarked that he was the best stuffed bird she had ever seen. Cameron likes a joke, so he remarked that he had a spring upon touching which the bird would turn its head to one side as though it were alive, and placing his finger on an imaginary spring he blew in the owl's face, and sure enough it cocked its head on one side as naturally as possible. She was delighted and said, "I'll get my husband and we'll make him think it is alive." She brought him and requested Cameron to touch the spring, which he did so effectually that the bird shook himself up so much that the lady discovered that she was the victim that had been sold and not her husband.

EXCURSION TO POMONA.

The New Town as it is and a Suggestion of What it is to be—Fine Scenery, Fine Air, a Fine Company and a Fine Time.

Sunday morning at 10 o'clock a company of some two hundred and fifty assembled at the Southern Pacific depot and boarded the train for Pomona. Four cars were comfortably filled, and promptly on time the well loaded train put out.

THE WEATHER AND SCENERY.

The day was delightful, the train speeding through green valleys, dotted here and there by farm houses, fields, flocks and herds, while the snow capped mountains in the background gave a Wintry air to this Summer pastoral scene. Ever beautiful San Gabriel was quickly passed and the intervening stations were scarcely noticed when in less than one hour and a half Pomona was announced.

POMONA STATION.

At the depot stood conveyances ready to take the visitors to any part of the tract free of charge. Some accepted the kind offer, some strolled into the grocery, and the remainder went to the Pomona Hotel to make their toilets and prepare for lunch.

THE HOTEL.

The hotel is an imposing frame structure which cost nearly $10,000 and is now conducted by Mr. M. A. Marshall, who entertained the visitors handsomely. Over two hundred sat down to lunch and did full justice to the viands set before them. For a new house we think the Pomona Hotel will compare favorably with any country hostelrie in Southern California.

OTHER IMPROVEMENTS.

Among other improvements we noticed a fine depot, a number of stores, a blacksmith shop, wagon shop, restaurant, butcher shop and several residences. At points along the tract we saw lumber scattered, indicating that lot owners were about building. One of the projected residences is for Mr. J. E. McComas, and will be a substantial homestead.

WHAT WE SAW.

It is hard to tell all we saw during our drive around Pomona. Generally speaking we saw a beautiful town site, well supplied with water, having a rich soil and laid out with elegant taste. We felt the bracing mountain breezes fan our cheeks, we saw Old Baldy with his snowy night cap, threatening winter; we saw a smiling settlement, the nucleus of a future great railroad town.

THE RESERVOIR

Is a spacious basin said to contain 3,000,000 gallons of water and the supply of which can be increased *ad libitum*. The stream comes from the cienegas in the hills and is unfailing. The immense water supply will undoubtedly be the great recommendation to Pomona. In addition to the reservoir supply wells have been sunk that reached water at a very few feet below the surface. The water-right is sold with the lots, so that the purchaser has security that he will always be safe on the water question.

THE LANDS.

The company own one mile square, their title being a United States patent. The town lots are laid out 65x120 feet and 32½ x 120 feet, making tracts that will suit almost any one desiring a comfortable building lot. Avenues are laid out through the town at right angles and are one hundred feet wide. On the East, South and West sides of the town, and a quarter mile from the avenues are laid out boulevards one hundred feet in width.

SCHOOL AND UNIVERSITY.

Plans are perfected to erect a school house costing $6,000, a two-acre tract having been donated for that purpose. The university has already been organized and subscriptions to the amount of $12,000 were secured Sunday. The site is selected and the Pomona company give forty acres of land to the enterprise. In the matter of education Pomona is destined to take a leading position in Southern California and it will no doubt redound greatly to her credit.

OTHER FACTS.

It would seem that nature had specially designed Pomona as a health resort. The heat in Summer is always tempered by balmy mountain or sea breezes and in Winter frost and snow are rarely experienced. As a fruit country it has no superior and it is destined to attain a great reputation as the producer of semi-tropical fruits. In addition to the Southern Pacific railroad Pomona expects the Los Angeles and Independence railroad, which is considerable in the way of great railroad expectations for a young town.

THE SALE TO-DAY.

No doubt many will attend the sale to-day and Jones & Noyes will sell a large amount of land. All who want a retired home should examine Pomona. It has many good points—position, scenery, water, climate, and an enterprising company. The land is offered without reserve, and on liberal terms. We hope to see this sale well attended and have no doubt auctioneer Noyes will give intending purchasers splendid bargains.

A brass door-key was found in front of the United States Hotel yesterday. It can be obtained by application at this office.

When Los Angeles street is widened it is proposed to arch Sanchez street behind the Pico House and extend the hotel to New Los Angeles street. The arch over Sanchez street will allow the public free ingress and egress and will double the capacity of the hotel, giving a continuous three-story building from Main to Los Angeles street, a distance of two blocks.

There will be an excursion of tourists to Whitewater this morning leaving at eight o'clock and returning at five in the afternoon. They will have a special train of three cars, and the party will number perhaps seventy-five. We believe it will be a pleasant occasion. Be on hand at 8 o'clock.

A man named Hiflemeyer, who works for Samuel Wise, was walking on Alameda street Sunday near the railroad track leading a dog. In trying to save the animal from harm the man fell under the car wheel of a passing train and his right elbow was crushed so badly that amputation was necessary. Dr. Brooke and McKee performed the operation at the hospital about two hours after the accident. Patient doing well.

—IN—

POMONA

—AND THE—

Pomona Tract,

—ON—

TUESDAY, WEDNESDAY AND THURSDAY,

Feb. 22, 23 and 24, 1876.

SPECIAL EXCURSION TRAINS

Will be run daily during the sale, leaving Los Angeles in the morning, giving the excursionists a fine view of the celebrated San Gabriel Valley en route to and from Pomona. A pleasant day in the pleasantest valley and settlement on the coast, and a return home again before night.

☞ EXCURSION TICKETS CAN BE HAD AT THE OFFICE OF THE COMPANY, NO. 1 SPRING STREET, LOS ANGELES.

POMONA

Has been selected as the headquarters of the Amsterdam Company, as an outlet to the celebrated Temescal tin mines. These mines and the large agricultural section to the North and South of Pomona will build up this place and make it second only to Los Angeles in this county in a very few years,

LOCATION.

The town of Pomona is one mile square, and is most beautifully laid off on either side of the railroad, thirty-two miles East of Los Angeles. It is situated in the San Jose valley, several hundred feet above the sea level, and back some thirty-five miles from the coast in a direct line.

COMMERCIAL CENTER.

It will be the commercial center of the East end of Los Angeles county, being more centrally located than any other station on the railroad—present or prospective.

MOUNTAIN SCENERY.

It is surrounded by most beautiful mountain scenery—Mount Cucamongo rearing its head (snow-capped during a great portion of the year) several thousand feet above the sea, only a few miles to the Northeast.

CLIMATE.

A range of hills cuts off the rawness of the sea-breeze, making the climate more equable and better suited to the invalid than localities nearer the coast, and yet there is a sufficient breeze to keep down the high temperature of the Summer so prevalent back further in the interior.

HEALTH.

As a healthful climate this is superior—the valley being along the foot of the mountains which, from San Gabriel to Cucamongo, is admitted to furnish the best climate on the Pacific slope.

FRUIT.

As a fruit country Pomona cannot be excelled in Southern California. It needs no argument to demonstrate this proposition; no one denies it, and the trees growing in the immediate vicinity prove the fact beyond a peradventure.

RAILROADS.

The railroad facilities are good, Pomona being within one hour's ride of Los Angeles—the Commercial and railroad center of Southern California—and on the main line of the Southern Pacific railroad, which is being rapidly pushed through to Texas.

MORE RAILROADS.

The prospects are also good that the Los Angeles and Independence railroad will cross the Southern Pacific at Pomona, giving the town the benefit of two railroads to Los Angeles and tide water, and eventually an outlet to Texas, Salt Lake City and San Francisco. This is the only town in Southern California, outside of Los Angeles, that has a prospect of a second railroad line.

WATER SUPPLY.

The supply of water for irrigating purposes is abundant. The cienegas furnish a large supply of water, and the land company has the right to develop the cienegas and put in artesian wells at their option. Four wells have already been sunk, and in every instance a good flow of water has been obtained at from twenty-six to thirty feet. Four wells will form a good irrigating head. An irrigating ditch has been constructed from the cienegas to the reservoir, which holds two and a half million gallons, and ditches have been constructed from thence to the different parts of the tract. Stock in the Pomona Water Company will be given with the land without extra charge—one share of stock to each acre of land—so that when the land is all sold the owners of the land will own and control the water.

AVENUES AND DRIVES.

Through the center of the town, each way, are laid out avenues one hundred feet wide, at the intersection of which, in the center of the town, is a block set apart for the erection of the hotel. On either side of the town are avenues of the same width. All six avenues will be graded by the Association, and set out to shade trees, making a six mile drive without leaving the town.

BOULEVARDS.

On the East, South and West sides of the town and one-quarter of a mile form the avenues are boulevards, each one hundred feet in width, which will be improved in the same style as the avenues—making over thirteen miles of a drive within a mile of the hotel.

SCHOOL HOUSE.

Plans are already completed for the erection of a school house, to cost $6,000, on a two-acre tract taken from the North end of Lot 1, Block 180, donated by the Association for that purpose. This school house will be the finest in the county outside of Los Angeles. Work will be commenced on the building in March and the structure will be completed at the earliest possible day.

TITLE.

The title to these lands and water rights is perfect, being a United States patent. We refer to Glassell, Chapman & Smiths; also to Louis Phillips, Francisco Palomares and P. C. Tonner, from whom the land and water rights were purchased.

TERMS.

On all sums less than $200, one-half down and the balance in one year at one per cent. interest per month. On all sums over $200, one-quarter down and the balance in three equal annual payments, with interest at one per cent. per month.

WITHOUT RESERVE.

The lands will be sold without reserve, the Association only reserving the right to stop the sale at any time, should prices become unsatisfactory.

LOOK AT THE LANDS.

Persons desirous of looking at the lands can obtain excursion tickets at reduced rates to Pomona, any day prior to the sales, at the Association's office.

IMPROVEMENTS.

A fine hotel, which cost, furnished, about $8,000, has been erected, and is kept by M. A. Marshall in a first-class style. There are also at Pomona two stores, a postoffice, blacksmith shop, wagon shop, restaurant, butcher shop and a number of residences—all of which have been built since August, 1875. There are also a number of houses in process of construction. A fine depot has also been constructed by the railroad company.

For further description of lands and full particulars inquire at the office of the Association,

HALL'S SAFE AND LOCK CO.

Gents: I had one of your single door (No. 4) Fire Proof Safes during the late disastrous fire of the 26th inst., and I was unable to get at it to open it until to-day, on account of the great heat and rubbish around it. It was in the second story of a three-story brick building, and was exposed to the heat OVER SEVENTY HOURS. On opening, I found my books all legible and my insurance policies as bright as when put in the Safe, and the Lock worked all right.

You will send me immediately another Safe, the same size, and I cheerfully recommend the Hall's Safe.

Yours, respectfully,

Gents: I take pleasure in informing you that the Safe purchased of you about a year since preserved my books and papers.

I will want a larger one when I get located.

Yours, respectfully,
M. M. FREDERICK.

We add the following from Portland, Oregon.

Gents: I take pleasure in stating, that in my experience as an adjuster of fire losses, I have always found the Hall's Safe, of Cincinnati, reliable in case of fire, preserving books and accounts in good order, and even the extensive Chicago conflagration, so far as my observation extended, did not result in so damaging any Hall's Safe as to render the contents of same totally worthless.

As a matter of fact, the Hall's Safe has a decided supremacy for protection in case of fire.

5,000 ACRES

— OF THE —

Lake Vineyard Land and Water Association.

THESE LANDS

are situated in the great natural Fruit Belt of Los Angeles county, and their peculiar fitness for the growth of Semi-Tropical Fruits is attested by the long and very successful cultivation of the Orange, Lemon, Lime, etc., on the adjoining lands.

2,500 ACRES

Of the lands of the Association adjoin the promising settlement known as the

INDIANA COLONY,

And 2,500 acres are on the San Gabriel valley plains, lying West of the Mission of San Gabriel and adjoining the famous Lake Vineward Tract, the property of Hon. B. D. Wilson. The main-trunk line of the

S. P. R. R. COMPANY

Passes through them, and there is a depot within one mile and a quarter.

THE WATER

All of the water is of the finest quality and raises on the lands of the Association,

There are churches and schools at convenient distances, and the climate is unsurpassed.

The lands now offered for sale are the finest ever placed upon the Los Angeles market.

SEWING MACHINES!

If you are wanting to buy a Sewing Machine, try a new Wilson and you will have no other.

A trial will convince the most skeptical of its superiority over all others, being adjustable in all its parts, every movement being positive, with a perfect tension and adjustable feed. It is simple, strong, durable and cheap, light and rapid running, doing all the different varieties of sewing from the finest fabric to the heaviest cloth or leather.

The latest improved Wilson will not run backwards, thereby avoiding the breakage of needles and thread and necessitating the removal of the goods from the machine while winding the bobbins as is the case with all other machines. HIGHEST PREMIUM AT THE WORLD'S FAIR, Vienna 1873. A very important improvement has lately been added to the Wilson. Call and see it before purchasing elsewhere. To try one is to buy one.

YOUNG MEN

Who may be suffering from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. **Dr. SPINNEY** will guarantee to forfeit $500 for every case of seminal weakness, or private disease of any kind or character, which he undertakes and fails to cure. He would therefore say to the unfortunate sufferer who may read this notice that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its ill effects, remember that if you persist in procrastination the time must come when the most skillful physician can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave. Full course of treatment $25. Send money by Post Office Order or Express, with full description of case. Call, or address,
